

**Valley Regional Medical
Center - "Best Hospital"**
*The Brownsville Herald
Readers' Choice Award*

For more than 35 years, Valley Regional Medical Center has served as Brownsville's premiere medical facility, with over 200 physicians representing 25 specialties. From emergency medicine, to heart surgery, to caring for tiny babies, we've become the hospital that families count on throughout the Texas Valley. While other hospitals treat you like a patient, we'll treat you like a person.

VALLEY REGIONAL
Medical Center

An HCA Affiliated Hospital
